Districting Rules and Goals

1. Federal Laws

Equal Population
Federal Voting Rights Act
No Racial Gerrymandering

2. California Criteria for Cities

1. **Geographically contiguous**
2. **Undivided neighborhoods and “communities of interest”**
(Socio-economic geographic areas that should be kept together)
3. **Easily identifiable boundaries**
4. **Compact**
(Do not bypass one group of people to get to a more distant group of people)

Prohibited: “Shall not favor or discriminate against a political party.”

3. Other Traditional Districting/Redistricting Principles

Respect voters’ choices / continuity in office
Future population growth

Manteca 2020 Census

Total Population:

83,740

Ideal District population:

20,935

Defining Neighborhoods

1st Question: What is your neighborhood?

2nd Question: What are its geographic boundaries?

Examples of physical features defining a neighborhood boundary:

- Natural neighborhood dividing lines, such as highway or major roads, rivers, canals and/or hills
- Areas around parks or schools
- Other neighborhood landmarks

In the absence of public testimony, planning records and other similar documents may provide definition.

Beyond Neighborhoods: Defining Communities of Interest

1st Question: What defines your community?

- Geographic Area, plus
- Shared issue or characteristic
 - Shared social or economic interest
 - Impacted by city policies
- Tell us “your community’s story”

2nd Question: Would this community benefit from being “included within a single district for purposes of its effective and fair representation”?

- Or would it benefit more from having multiple representatives?

Definitions of Communities of Interest may not include relationships with political parties, incumbents, or political candidates.

Your Turn - Neighborhoods

What is your neighborhood and what are its boundaries?

What other notable areas are in the City, and what are their boundaries?

Discussion to identify areas that meet each AB 849 definition:

- “neighborhoods”
- “communities of interest . . . that should be included within a single district for purposes of its effective and fair representation.”

Your Turn – Communities of Interest

- ❑ Who is a part of your community?
- ❑ What are some meaningful places your community recognizes or gathers at?
- ❑ What are some common concerns you share with a group?
- ❑ What are some common cultural characteristics that unite a community?
- ❑ What are common work-related traits that bring a community together ?
- ❑ What is significant about the physical environment?
- ❑ What areas benefit from staying together in a district?

*Your thoughts and ideas will become part of
the record and be recorded / written down*

Public Mapping and Map Review Tools

- **Different tools for different purposes**
- **Different tools for different levels of technical skill and interest**
 - Simple “review draft maps” tool
 - Paper- and Excel-based simple “Draw a draft map” tool
 - Online tool to create, view, analyze and share maps

Whether you use the powerful (but complicated) online mapping tool, Excel, the paper kit, or just draw on a napkin, we welcome your maps!

Each number indicates the total population of that "population unit" area. Each district must have essentially equal population. The population of each of the 4 districts must be close to 20,925, with no more than a 2,092 difference between the largest and smallest.

You can hand-deliver, mail, fax, scan and email, or photograph and email your map.

District Elections

The City of Manteca, like hundreds of cities and school districts across the state, is making a change in how voters elect its City Council. Beginning in 2022, voters will vote for one City Council Member who lives in their district. This will replace the current system of at-large citywide elections in which voters have the ability to vote for all City Council Members.

We need your help to make this change and draw new City Council districts!

One of our primary goals when drawing City Council districts is to draw lines that respect neighborhoods, history, and geographical elements. So we want to know: What do you consider the boundaries of your neighborhood?
